

Situation Update on COVID-19: 17 May 2020

The COVID-19 pandemic has already been shaped a global economic and humanitarian crisis of a completely different magnitude. Declared as a pandemic by the World Health Organization (WHO), WHO prepared several guidelines to fight against pandemic. Governments across the world enforce lockdowns to suppress the spread of Covid-19 although many countries have been unable to contain its spread. However, it has been detected in **213** countries so far. The COVID-19 has already resulted in **313,459** deaths globally; the confirmed COVID-19 positive cases are **4,734,378** where **2,602,683** are the active cases¹.

Bangladesh is not new to disasters or major humanitarian crises. The COVID-19 pandemic, however, is a crisis of a completely different magnitude and one that will require a response of an unprecedented scale. The first case of Covid-19 in Bangladesh was detected on 8 March 2020. However, the confirmed COVID-19 positive cases are increasing on a daily basis. Compare to the total conducted test of COVID-19, **15.69%** is tested positive today, on the one hand. The recovery rate is **1.46%** out of total **17567** active cases. To control the situation and the spread of COVID-19, the government has taken several measures which include confirmed Social and Physical Distancing, Countrywide Lockdown, Institutional and Home Quarantines etc.
